The most precious treasure of our Lord are the prayers of his people. The entreaties of the bride are the joy of the Bridegroom. For proof see Revelation 5.8 and 8.3-5. They accomplish more than any other tangible act. They open the door for the all-powerful Lord to act in ways He cannot without them. Prayers are seeded in heaven, scattered on the earth returning to Him from believing saints. He then returns them to earth with powerful actions which determine history.

There are profound warnings and changes before our nation and the church. The saints don't whinge and lament, they believe and pray and await the action of God.

Let's do it.
